

GET AWAY

**→ QUEEN OF THE HILL**

Situated atop one of San Francisco's more famous spots, **Nob Hill Spa** offers a royal vantage on the city below. As you descend the steps leading to the infinity pool, you'll get a spectacular view of the city skyline through 18-foot-high windows. Lounging by the pool in a luxurious robe, sipping fruit-infused water, and dining on the spa's excellent cuisine poolside might make you feel as if you've risen to the heavens.

And then there are the royal treatments. You'll be spoiled for choice: champagne facials, vitamin cocktails, ancient healing rituals, and hi-tech LED light-therapy facials are but a few. The exotic-sounding Thai Coconut Massage Wrap

includes an exfoliating shower followed by a massage and a body wrap that allows essential oils to sink in for amazingly soft skin.

One of the most popular treatments is the Bamboo Green Tea Scrub, which combines the fragrant scents of green tea, bamboo, cherry blossom, and wild-lime silk oil (\$125 for 50 minutes). A take-home kit of this treatment from Red Flower Japan is available in the on-site boutique.

Nob Hill Spa is in the **Huntington Hotel**, located at 1075 California St. in San Francisco. For a spa menu or for reservations, visit the Web at huntingtonhotel.com or call 415.345.2888. ◀
